Backlog Prioritization

Purpose: Generate a real-time priority score using templates (WSJF/RICE/ICE)
+ custom metrics.

Core coverage included

Backlog Prioritization	Our App
Templates + custom template, metric configuration	✓
Priority matrix + customization	✓
Priority history + export	✓
Planning Poker	✗
Priority details inside Issue Context module	✓

Coverage Summary:

- **Timesheets:** ~75% strict, and ~85% when including partial + in-progress items (benchmarked vs Tempo Timesheets).
- **Capacity Planner:** ~85% (benchmarked vs Tempo Capacity Planner).
- **Backlog Prioritization:** ~80% benchmarked vs Foxly.
- **Portfolio Management:** ~85% benchmarked vs Structure by Tempo.

Overall combined takeaway:

The suite delivers ~80–85% coverage per capability (with Timesheets at ~75% strict / ~85% incl. partial + in-progress), while consolidating these categories into one governed app.
